

Check List for Particle : \bar{d}

April 21, 2009

Quantity	Us	PDG	EvtGen	Quantity	Us	PDG	EvtGen
PDG Code	-1			Mass	5		
Width	0			Gen Name	dbar		
Decay Length	0 m.						

Latex Name	d	Mass Gen.		Width Gen.		Type	quark
Type	constituent	Con. Mass	325	Rating	*****	Variable Ratio	fixed
Stable	stable	Spin	1/2	Charge	1/3	Colour	-3
Lower Cut	0	Upper cut	0	PDG link	q123		

- Is the description present and correct?

The down quark is the isospin= $-1/2$ first generation quark. The physical mass is at the centre of the range quoted in [?] and is only used as a coupling while the constituent mass is used kinematically.
